Hello Haider,

This is the note I referred to in the email that has just preceded this one.

1. WHERE I NEED EXPERT ADVICE

I would like a review, in the medium of a written article, in which I would like to know:

- (a) how well the results of the quantitative analysis match your perception of trends
- (b) about any justification that you might think of that explains the results
- (c) about limitations and ambiguities of the questions in the questionnaire

Please limit your review to those sections that regard technology on which you can manifest experience and knowledge.

Please excuse this latter explicit statement;

I do realize that it's a bit blunt, but

since this is a scientific study, I have to state the ground rules.

2 FORMAT OF THE ARTICLE

The format of the article is not important.

However, the three aspects (1(a), (b) and (c), referred to above) should emerge clearly without the need for extensive parsing.

I am very happy to pay for your time.

Please do let me know what your fee would be beforehand.

Best wishes,

Etienne

Hello Etienne,

It was lovely talking to you earlier today.

As for the requested article/advice, the fee would be £100 if that's fine please? Also, when do you want me to complete the answers? Is there a deadline to follow or you happy for me to do at my earliest convenience?

Regards,
Haider Khalid

Wonderful, Haider, I'm very happy that you're willing to meet my request.

Can you write this by Monday 5th June?

I need to integrate your advice into the article I'm writing for MDPI Sustainability and my thesis.
If you can't meet this deadline, can you let me know what's the earliest date in June that's suitable?

Furthermore, do you accept payment by Paypal? If so, what address should I send it to? If not, how would you like me to pay?

Cheers,

Etienne
